WEEKLY MATRIX

The weekly forecast showed us that an increase in volatility should be expected. We got it. DJIA closed the week -2.37%.

We had a little Bullish energy in the beginning of the week followed by a strong Bearish turn on Tuesday and Wednesday. Markets tried to recover from Wednesday's sell off on Thursday, but dove even lower on Friday.

Something unexpected was expected. Algo forecast for the DJIA showed a sharp move higher while at the same time cycle forecast were pointing to a significant drop. I learned that when you have conflicting forecast, and both forecast indicate a big move, then something unexpected is coming. I expect this drop to be short-lived, perhaps a week or two.
