Weekly Commentary

All Matrix indicators are expected to manifest within a +/- 1-day window.

The Matrix forecasted a very bearish Monday, but the market went up. That is why I never try to predict Monday, but this week is an exception. I expect the stock indexes to take a hit this Monday not based on any of my indicators but simply due to the situation in the Middle East.

As for last week, we had one option trade that returned a 140% profit.

The Matrix Summary correctly predicted the higher or lower close on Tuesday thru Friday.

Algo forecasts for last week all did very well.
