Matrix Calendar

The weekly outlook was:

Mercury is now retrograde. Be careful with your communications.
Monday and/or Tuesday should close lower.
A couple of high volatility indicators suggesting a +/- 1% change in stock indices on daily moves.
11/10/25 -- Big bearish spike from NOAA for Tuesday and Wednesday.
11/10/25 -- Moon square the Sun on Tuesday. Usually the day before or the day ofr will have a lower close.
With Monday closing higher, the odds of a lower close on Tuesday is increased.
11/10/25 -- Updated Heat Map now shows Tuesday as the most bearish day of the week.

The Matrix showed a very bearish Tuesday and Wednesday but rumors the government might reopen kept the momentum going. Once it was officially opened, the bubble burst. Reminds me of the old adage "Buy the rumor, sell the news"

Matrix Heat Map

The Matrix Heat Map, a simplified version of the Matrix, applies adjusted weightings to its values.

A history of Option trades can be found at:

Matrix Summary

Mondays are not included in the analysis. As usual, the indicators forecasted three days correctly.

SPY Small Reversal Signals

These indicators are doing a good job of forecasting 2 to 3 day reversals. The reversals could last longer but 2 to 3 days is the minimum to be expected.

Algo Forecasts

What are Algo Forecasts: http://oss.cc/education/algo_forecasts.pdf

NOTE: The blue line forecasts direction not price, but large moves of the blue line usually correspond with large moves in the asset.
