Algo Forecasts

What are Algo Forecasts: http://oss.cc/education/algo_forecasts.pdf

As usual, the Algo forecasts did a good job

Matrix Calendar

The indicators were mixed this week. The Bullish/Bearish Indicator leaned strongly bullish, particularly early on, while the NOAA Space Weather Indicator was distinctly bearish. With signals pointing in opposite directions, the market could have moved either way or simply oscillated back and forth. As a result, the Matrix didn't provide much useful guidance.

Matrix Heat Map

The Matrix Heat Map, a simplified version of the Matrix, applies adjusted weightings to its values.

The Heat Map provided some useful guidance this week. It clearly signaled a bullish day on Tuesday and suggested a lower close on Wednesday. Unfortunately, the market did not finish lower. Holiday trading around Thanksgiving—or even Mercury retrograde, which is known to nudge indicators slightly off—may have contributed to the discrepancy. This could also help explain why the Matrix Summary on the next page underperformed this week.

Matrix Summary

Mondays are not included in the analysis. As usual, the indicators forecasted three days correctly.

SPY Small Reversal Signals

These indicators are doing a good job of forecasting 2 to 3 day reversals. The reversals could last longer but 2 to 3 days is the minimum to be expected.

The grouping of reversal indicators last Friday did a great job of forecasting this week's run higher.
