## Algo Forecasts

What are Algo Forecasts: [http://oss.cc/education/algo\\_forecasts.pdf](http://oss.cc/education/algo_forecasts.pdf)

The blue line forecasts direction, not price.

## Summary

### Weekly Matrix Indicators

#### Hits:

Friday was identified as the most bearish day of the week on the Heat Map and did, in fact, close lower.

Wednesday was flagged as the most bullish day of the week and closed higher.

The Matrix Summary correctly forecast the direction of the daily close three times: Tuesday, Wednesday, and Friday.

The SPY Reversal signal accurately predicted a rally that began the previous week.

#### Misses:

The NOAA space weather forecast for the week was exceptionally strong, a condition that typically correlates with market pullbacks. However, this signal was overridden by the Santa Claus rally.

## Matrix Heat Map

The Matrix Heat Map, a simplified version of the Matrix, applies adjusted weightings to its values.

HOLIDAY

## Matrix Summary

Mondays are not included in the analysis. As usual, the indicators forecasted three days correctly.

## SPY Small Reversal Signals

These indicators are doing a good job of forecasting 2 to 3 day reversals. The reversals could last longer but 2 to 3 days is the minimum to be expected.
