# Algo Forecasts

What are Algo Forecasts: [http://oss.cc/education/algo\\_forecasts.pdf](http://oss.cc/education/algo_forecasts.pdf)

The blue line forecasts direction and magnitude, not price.

## Summary

- The **Matrix Heat Map** correctly forecasted whether stock indices would close higher or lower on Wednesday, Thursday and Friday.
- The **Weekly Matrix** warned us of a possible move +/- 1-day from Thursday of a close of greater than +/- 1% for the stock indices. We saw it on Friday.
- **Algo** forecast all fit well with the actual movement of the assets being followed.
- The **Matrix Summary** correctly forecast the direction of the close for Tuesday through Friday.

The Matrix Heat Map, a simplified version of the Matrix, applies adjusted weightings to its values. Forecasts for Mondays are 50/50 so they are ignored.

## Matrix Summary

**Mondays** are not included in the analysis. As usual, the indicators forecasted three days correctly.

## SPY Small Reversal Signals Magnitude (SSRSM)

When the **dotted blue line** moves above **0.5**, there is a high probability of a 2 to 3 day reversals. The reversals could last longer but 2 to 3 days is the minimum to be expected.
