Algo Forecasts

What are Algo Forecasts: http://oss.cc/education/algo_forecasts.pdf

The **blue line** forecasts direction and magnitude, not price.

Red circle = Short-term bearish move expected

Green Circle = Short-term bullish move expected

Summary

- The **Matrix Heat Map** correctly forecasted Tuesday and Friday as being the most bearish days of the week. Friday closed higher which I believe was due to Trump saying a deal with Iran was being worked out.
- **SPY Small Reversal Signals Magnitude (SSRSM)** There was a small spike on last Friday. The SPY had moved higher so we would expect a move lower. On the same day, the Moon moved into phase 1 which is the only phase which over time has shown the SPY posting a loss. The markets pulled-back on that Friday, and continued going lower on Monday and Tuesday.

The Matrix Heat Map, a simplified version of the Matrix, applies adjusted weightings to its values. Forecasts for Mondays are 50/50 so they are ignored.

Matrix Summary

Mondays are not included in the analysis. As usual, the indicators forecasted three days correctly.

SPY Small Reversal Signals Magnitude (SSRSM)

When the **dotted blue line** moves above **0.5**, there is a high probability of a 2 to 3 day reversals. The reversals could last longer but 2 to 3 days is the minimum to be expected.
