Quick Summary:

Weekly Summary

COMMENT: Monday and Tuesday were a bundle of bearish energy. Both close lower.

Heat Map

COMMENT: Tuesday, the most bearish day of the week, did close lower.

Matrix Summary

Comment: It correctly forecast whether the markets would close high or lower 3 out of 4 days. That is what we expect.

SPY Reversal Signals

COMMENT: We got the expected reversal

Out-of-Bounds Indicator

COMMENT: I was looking for a low during the 13th – 18th that was below the high on the 5th of 776.60 (1). All three closes between the 13th and 18th were below the high on the 5th.

Option Trades

COMMENT: A disappointing week. All losing trades opened well below the 50% stop loss used on each trade. Possible reason was the extremely choppiness of the week.

Weekly Profits: **-308.03%** Cumulative Profits: **+2843.98%**

SPY Reversal Signals

COMMENT: We got the expected reversal

Reversals are likely to occur when the dotted blue line moves above 0.5 or sinks to 0.

Also when the Moon changes phases.

Full Moon to New Moon is usually bullish.

New Moon to Full Moon is usually bearish.

When the **dotted blue line** moves above **0.5**, there is a high probability of a 2 to 3 day reversals. The reversals could last longer but 2 to 3 days is the minimum to be expected.

Option Trades

COMMENT
